

# RECYCLE Fluorescent Lamps & Tubes

## Why?

All fluorescent lighting contains small amounts of mercury. Mercury is hazardous to your health, which is why California banned fluorescent lamps from disposal in the trash. If they break, mercury is released.

*A recent study conducted in the San Gabriel Valley found that 45% of mercury-containing lamps are being thrown in the trash!*

Funded in part by a grant from the Department of Resources Recycling and Recovery (CalRecycle)

Program is funded by California utility customers and administered by Southern California Edison under the auspices of the California Public Utilities Commission

# RECYCLE

# Fluorescent Lamps & Tubes

**FREE!\***  
Quantity  
Unlimited

**September 24 & 25, 8 AM - 1 PM**

\* Household generated lamps only  
Tubes 4' long or less

**KMART parking lot  
1162 North Citrus Ave.  
Covina, CA 91722**

Funded in part by a grant from the Department of  
Resources Recycling and Recovery (CalRecycle)

Program is funded by California utility customers and administered by Southern  
California Edison under the auspices of the California Public Utilities Commission
