SPONSORS

RECREATE
WASTE COLLABORATIVE

California's new Textile Law invites designers to solve circularity's biggest challenges.

California's Textile Extended Producer Responsibility (EPR) program will have incentives for eco-designs, reuse, repair, and recycling. The law set a new definition of "repair" that include design processes to make new products from existing materials. Brands can get lower or zero "eco-modulated fees" based on product materials and design. Learn more at this event about the statewide textile program and design incentives.

MEET THE INSTRUCTORS

JOANNE BRASCH, PHD
Assistant Director of The
California Product
Stewardship Council

MANNY JACKSON
Designer, Entrepreneur &
Founder of ThreadHaus

KESTREL JENKINS
Educator, Founder of
Conscious Chatter & CF of
Fashion is Outrageous
